Professional Experience:

2000 – Present
Playas de Tijuana,
B.C., Mexico

Founder and Chief Medical Officer
Hope4Cancer Treatment Centers (*formerly* Hope4Cancer Institute)

- **Established and expanded cancer treatment center.** In the year 2000, founded, managed and promoted self-funded treatment center with 24x7 full service, in-patient care (4 beds). In 2010, executed first expansion of treatment center to a capacity of 10 in-patients, followed by a second expansion in 2014 to a capacity of 21 in-patients and 15 out-patients. In this time period, census of patients on 2 or 3-week programs has increased from double digit levels to over 500 per year.
- **Established treatment philosophy and protocols.** Created a treatment philosophy known as the “Seven Key Principles of Cancer Therapy[™]” that became the basis for the development of non-toxic treatment protocols designed to help patients overcome the odds of recovery from cancer while maintaining or improving their quality of life.
- **Innovative introduction of non-toxic treatments.** Researched and pioneered numerous treatments with a high safety index, alongside time-tested natural therapies, within the purview of the Seven Key Principles of Cancer Therapy. These therapies included Sono-Photo Dynamic Therapy, Local Hyperthermia, Oncolytic Virotherapy, AARSOTA Bioimmunotherapy, Sunivera Immunotherapy, Salgena Therapy, Maragen Therapy, Garden Food Plan[®], and others.
- **Innovation in non-invasive diagnostic, assessment, and treatment devices.** Implemented the use of non-invasive diagnostic, assessment, and therapeutic devices including the pioneering use of ultrasound to detect tumor blood flow, thermography, biofeedback, bio-resonance, lasers, pulsed EMF, and LED light.
- **Representation at conferences/workshops worldwide.** Invited to present at hundreds of conferences/workshops within the United States and internationally.
- **Representation at online events.** Represented company in a wide variety of online events including docuseries, recorded training modules, interviews, and live webinars.
- **National and international business development efforts.** Established numerous relationships with doctors, scientists, and treatment inventors and providers, both nationally and internationally, with the purpose of finding the latest, effective non-toxic treatments for cancer. Key relationships includes those with entities in Germany, Japan, Latvia, Canada, Spain, Thailand, Colombia, and Cuba.
- **Research and development efforts.** Led research and development efforts into the identification of new medical treatments and protocols; guidance and oversight of collection and analysis of medical data and maintenance of long-term records.
- **Patient education.** Recognized importance of empowering patients with a strong understanding of the Seven Key Principles of Cancer Therapy through the creation of a variety of educational materials, as well as group and 1-on-1 counseling.
- **Mentoring of medical staff.** Ongoing mentoring of doctors, nurses, scientists, and other staff on the basics of the treatment philosophy as well as hands-on practical guidance. Leading the creation of a medical education program in integrative medicine.
- **Executive, administrative and legal responsibilities.** Overall responsibility for the administration and legal departments of treatment centers. Oversight and management of due diligence process required for the registration of treatments and products in Mexico.

2015 – Present
Cancun, Q.R.,
Mexico

Founder and Chief Medical Officer
Hope4Cancer Treatment Centers (*formerly* Hope4Cancer Institute)

- **Established and expanded treatment center in Cancun.** While founded on the principles of the original treatment center in Tijuana, the Cancun treatment center was uniquely designed to provide out-patient care while allowing patients and their families

DR. ANTONIO JIMENEZ, M.D., N.D., C.N.C.

the ability to enjoy and relax at one of the major medical tourism destinations in the world. Starting capacity of 12 has been expanded to 96 patients.

2005 – 2009

Atherton Health and Natural Planet USA

- **Business development.** Participation in national and international efforts to develop start-up company focused on nutritional supplements and non-invasive medical and wellness devices.
- **Established an extensive catalog of nutritional supplements.** These products included general wellness products as well as specialized anti-aging supplements.
- **Clinical study of immune supplement.** Formulated and conducted a clinical study of an immune system supplement on advanced HIV patients in South Africa with excellent quality of life enhancing results. Supplement optimized and used as a foundational immune system supplement and Hope4Cancer Treatment Centers since 2010.

1998 – 2000
Rosarito Beach,
B.C., Mexico

Founding Medical Director
Sanoviv Medical Institute

- **Establishment of program.** Key role in establishing Sanoviv's initial cancer treatment program.
- **Medical role.** Day-to-day treatment, education, and advisement of patients.
- **Medical advisory role.** Advised management on the selection of appropriate treatments and protocols, as well as their effective clinical implementation.
- **Marketing role.** Worked with marketing team as a medical expert to connect with prospective patients, dramatically improving conversion to actual patients.

1990 – 1998

Sub-Administrative Director
Oasis of Hope Hospital

- **Medical role.** Responsible for the treatment of cancer patients at the clinic, as well as oversight of other medical professionals.
- **Medical advisory role.** Played a key role in assisting management select and make decisions on appropriate new treatments and protocols.

Clinical Innovations/Milestones:

- 2019 **Salvus Immunotherapy.** Immunotherapeutic protocol that uses patented T-Cell Modulator products from HZ Health designed to improve the body's adaptive immune system response.
- 2019 **Salgena Protocol.** Immunotherapeutic protocol that combines the use of Salgena (RNA thymus peptides and other biotechnologically derived peptides including epithalon), Salvus Immunotherapy, and Activa IC3 (nutraceutical that restores the function of the adaptive immune system).
- 2018 **PDIS Technology.** Introduction of the minimally invasive Photodynamic Infrared Spectroscopy technology coupled with Indocyanine Green photosensitizer to detect and destroy circulating tumor cells.
- 2018 **Maragen/SAC Calcium.** Introduction of Maragen/SAC that optimizes the blood's calcium concentration that activates the immune system's response to tumors, disables the acid cycle that feeds cancer proliferation, and reactivates the p53 gene.
- 2017 **PDT Plus.** Integration of intravenous and interstitial multi-wavelength laser technology into treatment protocols; based on the latest technology developed by Weber Medical Technologies in Germany.
- 2016 **Sunivera Immunotherapy.** Multi-product immunotherapy protocol integrating safe activation of the body's innate and adaptive immune system, developed in key collaboration with Saisei-Mirai Clinics in Japan.

DR. ANTONIO JIMENEZ, M.D., N.D., C.N.C.

- 2014 **Rigvir Oncolytic Virotherapy.** Virotherapy Certified Physician, first introduction of Rigvir Oncolytic Virotherapy in Mexico. Key collaboration with the International Virotherapy Center in Latvia.
- 2005 **AARSOTA Bioimmunotherapy.** Development of a process to isolate patient-specific, cancer antigens from patient's body fluids (e.g. urine, ascites), and re-injecting them to activate the immune system against cancer.
- 1990 - present **Sono-Photo Dynamic Therapy (SPDT).** Worldwide leader in the clinical implementation of sound and light activated selective cancer therapies. Currently one of Hope4Cancer's mainstay therapies. Demonstrated clinical evidence of the correlation between reducing angiogenesis with SPDT in combination with other therapies and patient outcome.

Research Accomplishments:

- 2017 **Principal Investigator, Quality of Life Study of Cancer Patients**
An analysis of 225 cancer patients at Hope4Cancer (Playas de Tijuana and Cancun) using before-and-after FACT-G surveys demonstrated a distinct sustenance or improvement in all aspects of quality of life of Hope4Cancer patients within their treatment window.
- 2016 **Research on the Effects of Hydrogenated Water on Intracellular Biomarkers**
Part of a research team studying the effects of hydrogenated water on improvement in cellular function.
- 2013 **Principal Investigator, Retrospective Study Using Color Doppler Ultrasound Analysis**
Retrospective study of 50 in-house cancer patients at Hope4Cancer (Baja California) using Power Color Doppler Ultrasound data demonstrated a significant (>50%) reduction in tumor hypervascularity for patients treated with Sono-Photo Dynamic Therapy as part of a holistic treatment protocol.
- 2011 **Principal Investigator, Weight Control Study**
Main clinical investigator in a 20 overweight and obese patient clinical evaluation with the use of a nutraceutical for weight loss and QOL issues.
- 2010 **Co-Investigator for an IRB-Approved Study**
The effects of combination therapy utilizing calcium disodium EDTA suppositories and tetracycline for the treatment of prostatitis and prostate calcification.
- 2008 **Principal Investigator, End-Stage Patient Quality of Life Study**
A study was conducted on 50 end-stage HIV-1/AIDS patients in Johannesburg, South Africa who were studied as part of a clinical demonstration of the effectiveness of nutritional supplementation in improving the quality of life of the subjects.
- 2000 – Present **Development of Medical Treatment Protocols.**
